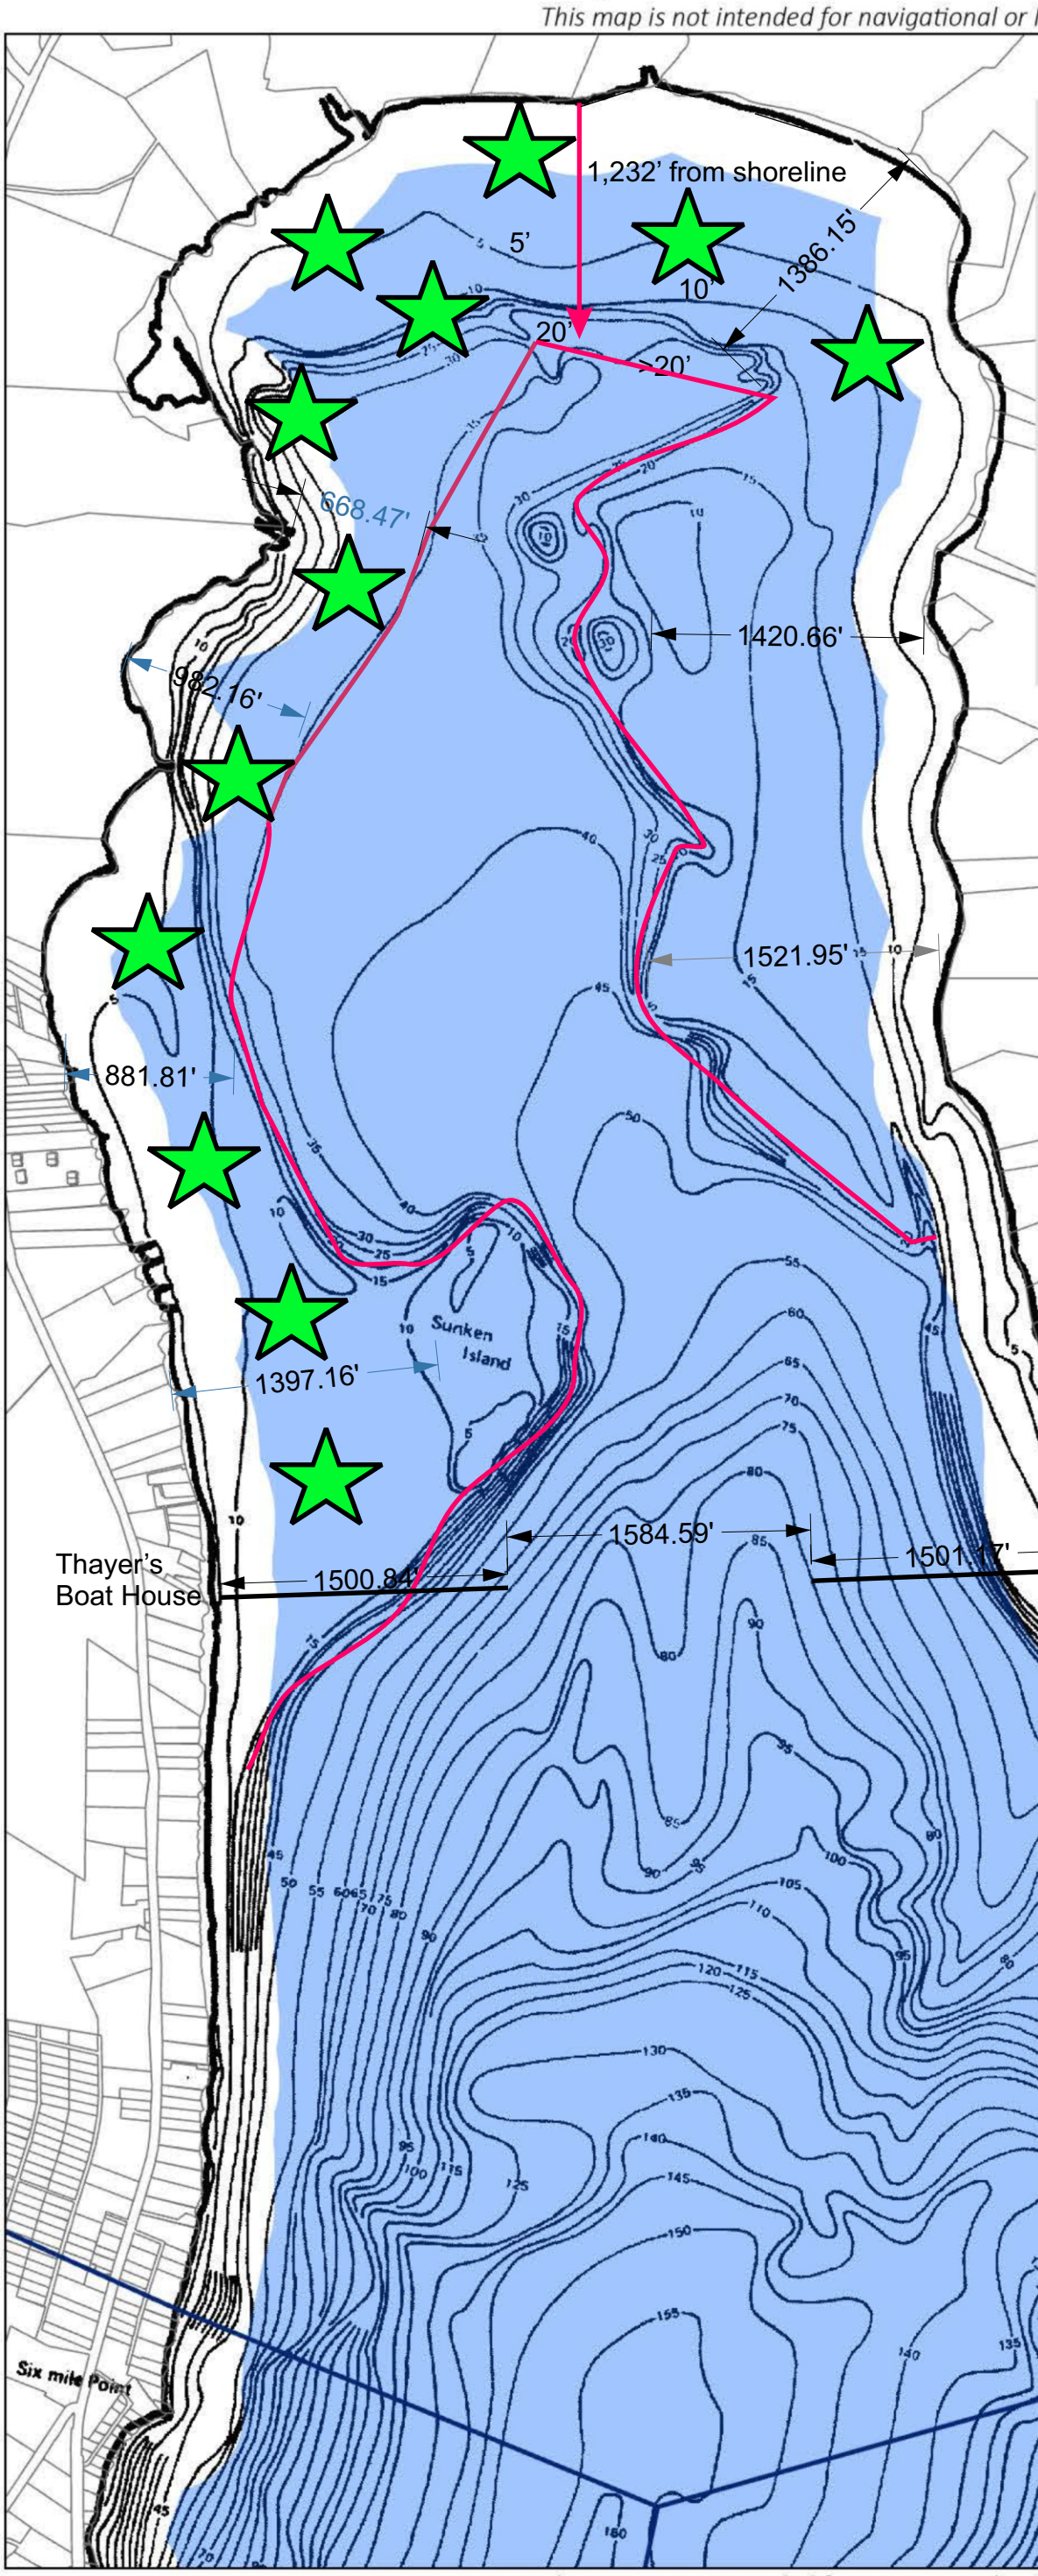
Otsego Lake Shoreline and Bathymetry (1974)
Town of Springfield, NY

Shading illustrates areas greater than 375 feet from shore

This map is not intended for navigational or legal purposes.



This overlay is intended as a visual aid for discussions of no wake zone distance considerations in relation to water depth – shaded area begins an estimated 375 feet shore but does not reflect locations of do piers, rafts, floats, or moored boats.

New York State boating regulations 'no w zone' rules apply to the specified distance shore, docks, piers, rafts, floats, or moor boats.

Water depths are approximate. This map s not be used for navigational or legal purp
